Subject: Notice of No Consent for Surveillance and Notice of Liability

Dear City of Naperville Agents, Officers, Employees, and Contractors:

If you intend to install a so-called "Smart Meter" with wireless communication capability or any meter that would electronically store information beyond that required to bill the customer for monthly electrical usage, then you and all parties are hereby denied consent for installation and use of any such device on my property at xxxxxxxxxxxxxxxxx. Consent is denied to collect, store, and/or transmit private and personal data for purposes unrelated to billing for monthly electrical usage. Any such activity would be considered an invasion of privacy, unlawful surveillance, and a threat to personal security.

All persons, government agencies, or contracted organizations responsible for installing and operating such devices described above would be considered fully liable for any intrusions, harm, or negative consequences caused or made possible by such devices.

Respectfully submitted,

---
